

## **Grade 12 PE Requirement**

**During the late MCAS starts in March and April, seniors have been assigned one day to come in early and participate in CPR Training. Please check which day you will be required to attend. CPR cards will be made available to students for \$5.00. Students have the option of not paying for a card on the day of training and asking for the card they earned at a later date prior to graduation. There is little flexibility due to the fact the every senior will need to be trained over a three day period, but if there is a conflict please speak to Mr. Carney immediately to discuss rescheduling.**

**Thanks**

**Mark Carney**
